

Hello, Kristin! Are you ok?

So, to you to go to my house from Tietê bus station it's very very simple: you will need go out from Tietê bus station and to get the subway in the same station, Tietê station, but you will need to follow the subway signs to Tucuruvi direction.

After you to get the subway to Tucuruvi Direction, you need exit to Tucuruvi Station. It's the last station.

When you to arrive there, go to up the stairs and go ahead to subway locks. Look to your left and you will see the entrance door to mall if you want to have lunch. There, you can up the escalator to the third floor to the food court. If you don't want to eat, just follow through the long corridor next to that mall entrance. After you will must up the escalator and turn right to the Tucuruvi station exit. You will can to get the bus or ask a Uber to my address. If you to prefer to get a bus, at the subway exit you will find a bus stop with three bus lines that go to my house. I advice to get the Jardim Guançã line or Parque Novo Mundo line because the stop point is closer to my house. You will ask to driver to alert you to get off at the fourth stop point of the Gustavo Adolfo Avenue. Then, you can cross the avenue, turn left on Gertrudes street, go for about two blocks and turn right on Balins street and you will arrive.

If you to need a hospital, you can to go from Tucuruvi station, before you to come to my house. It's closer to station. You must to go ahead to Tucuruvi avenue about five blocks until Presidente Hospital.
